Continuation of Disposition of Claims: Claims subject to restriction and/or election requirement are 1-4,6-12,14-22,33-40,43,62-65,67-69,74-80,85,86 and 94.

### ***Election/Restrictions***

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-4, 6-12, 14-22, 33-40, 43, 80, 85-86, and 94 drawn to receiving an event by an application using a filter at a subscriber node, classified in class 719, subclass 318.
- II. Claims 62-65 and 67-69 drawn to defining an event server as a common gateway for communicating with other nodes, classified in class 719, subclass 311.
- III. Claims 74-79, drawn to communicating using messages at a publisher node, classified in class 719, subclass 313.

Inventions I, II and III are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention I has separate utility such as sending an event to an application using a filter located at the subscriber node. See MPEP § 806.05(d).

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.
